President's Message

Diversity

In looking at our club, I'm surprised by the diversity of its members. Other organizations I've been acquainted with are more uniform in their membership. We have artists, teachers, businessmen, scientists, salesmen, doctors, restaurateurs, mechanics, contractors, real estate managers, investment managers, housewives and retirees. We have penny-pinchers, spend-thrifts, introverts, extroverts; people fighting depression, cancer, high blood pressure, high cholesterol, and obesity. We have people with advanced academic degrees and those that just barely made it through high school.

When we get together for our "Happy Hours" during our travels our commonality comes forth; we seem to share a similar sense of humor. Our likes and dislikes are understood by the others. Sure, we get "miffed" now and then over something someone has said or done. But we are all intelligent enough to move on and forgive and forget. If this were only happening in our country! Of course, the one thing that brings us all together is the Austin-Healey and the memories it entails. We are all dedicated to the preservation, promotion and enjoyment of these cars (especially the enjoyment). See you all at the next gathering.

Keep 'em rolling,
Ann

Healeys Return to Bonneville

WOW. What an event. I may have been a bit closer to all that went on than most of you, but I am sure we will never see another world wide event like the Return to Bonneville team put on. With nearly 200 people from around the world on the Salt Flats to watch the team try to duplicate the feats of Donald Healey and his 1954 record team it was truly an amazing eight days.

From the Welcome Party at Don and Marian Colman's, then the event at Miller Motorsports Park, to the last run of the endurance car on Saturday, you could just feel the excitement. The team was at all times very gracious and VERY appreciative of all that the Bonneville Club did to help with the event. Several of my friends with the Utah Salt Flats Racing Association have commented how the Healey Team brought so many people to the salt flats. They have never seen such a turnout for their event before.

I hadn't been to Bonneville for many years and it was almost like a new experience for me. The sights and sounds are unbelievable. To be at the three mile mark and watch cars going near 300 MPH is a sight to see. To walk around the pits and look at the engineering that goes into the cars is another highlight.

The pit for the Healey team was a constant beehive of activity. With the regalia that the team brought, and all the people from everywhere, and the repairs and tuning of the cars, there was never a dull moment. I was reacquainted with people that I have met at Conclaves, West Coast Meets, and Rendezvous. Plus I met many more wonderful Healey People. The Healey group is truly a fraternity.

The Streamliner only had one good run, but it was perfect. David Pike was making his licensing run and was to go between 135 and 150 MPH, He went through the clocks at 149.5. Joe Jarick and Bruno Verstraete, the endurance car owner, made several runs in the 120-128 MPH range and had a blast doing so. I, as well as the Return to Bonneville Team, now know what a feat that Donald Healey and his record making crew performed in 1954.

The Roundtable event on Wednesday night was another memorable event. The speakers gave quite an insight to what happened in '54 and what the Return to Bonneville Team wanted to do. Mike Crawford, who helped set up the center for the event could not believe that 175 people could be so attentive for so long that the

Jackson Trip

The Jackson trip was marvelous! The weather was friendly. The Pseudo Healey (Don Colman's Miata) caught a typical Healey "infection" %overheating. One other problem occurred: Doug Lewis's "trafficator" dropped out (not to be outdone by Colman).

We (the Lewis's and the Colman's) met the McEligot's in Montpelier for lunch; a good lunch at Butch Cassidy's Restaurant & Saloon. The drive from Montpelier to Alpine through the back country and through Tin Cup was pleasant. Later we were joined by Jim Sailer from Idaho Falls in his beautiful red-over-black Healey.

The colors and, of course, the scenery were glorious. The Snake River was rimmed with reds, oranges and rusty golds against the dark green pines. Our drive on Saturday through the Grand Teton National Park was invigorating. We saw areas that were new to our Healey Club. We came upon a small herd of bison mothers with their young crossing our path and one "huge" father bison bringing up the rear (your typical polygamist bison). We ran out of time before we ran out of sights.

The camaraderie during our "Happy Hours" at the Alpen Haus Resort" was excellent. All in all it was a "stupendous" trip.
