President's Message

The New Colossus

Give me your tired your poor, your huddled motors yearning to breath free. The wretched refuse of your teaming chores. Send these the homebound tempest tossed to me. I lift my Lucas lamp beside the golden door to a fun summer.

You might notice some similarity of the above to the poem, "The New Colossus", about the statue of liberty. The "Old Colossus" stood as one of the seven wonders of the ancient world at the entrance to the harbor of Rhodes. So we are all faced with a colossal task at the entrance to our "roads", that of getting the old Healey out and doing all the work that needs to be done to get it back on the road.

I am always amazed that you can put the car away without a problem that needs attention and get it out in the spring and find that something has gone wrong whilst not being used.

For me, the sudden scream of my speedometer cable and the dancing of the needle interrupted my first ride of spring. But wait a minute; this is nostalgia since it brought back memories of 1959. I always wondered why my mother's Olds never had that problem.

Then there was the first step on the brakes to find that the pedal travel was once again the same as it was before the club bled them last summer. Could they have gone bad again so soon I ask myself, and if so, is that normal? Could it be that the bloody brakes need to be bled again?

Thanks to the generous members of our club all these questions and more will be answered at the next meeting, and knowing them they will be anxious to come to the rescue of a doctor in distress.
